Quick Audit #6: Aid Factor Analysis

What you are looking for: Variances from year to year in shared cost, membership and equalized value.

What you need to do: Shared cost, membership, and equalized value will be used in the October 15th General Aid Certification. Visually compare the two years of data reported here. Based on what you know about your district, do the percent differences seem reasonable to you? (The Department of Revenue acknowledges that some districts may have large differences from year to year in computer value).

Aid Factor	FY -1- PI-1506-AC Data	FY -2--1 Annual Data	Difference	Percent Difference
1 Shared Cost	0.00	0.00		n/a
2 Membership	0.00	0.00		n/a
3 Shared Cost per Member	0.00	0.00		n/a
4 School Aid TIF-OUT Equalized Value	0.00	0.00		n/a
5 Business Computer Value	0.00	0.00		n/a
6 Total Value Used in Aid Computation (4+5) ***	0.00	0.00		n/a

*** The sum of the School Aid TIF-OUT Equalized Value and the Business Computer Value is used in the equalization aid computation.
